SINCE our last issue Madame States' Opera Troope have given three operatic entertainments-on Thursday and Saturday evenings of last week, and on Monday evening of this week, on each of which evenings His Majesty, the King, has honored the oc casion with his presence. It is impossible for us, this week, to give an extended criticism up the so perb renderings of the selections of the principal Operes given by Madame States' Opera Troupe, but we will say, that judging from the andiences which have visited the theatre every evening during the operatic season, so far, that the best musical talent of Hossiulu (and there is a good deal of it of no mean order), fully appreciate and sustain the reputation of the troops.

FLOOD IN HILO.-It is understood by most people resident in this Kingdom that it sometimes rains in Hilo; indeed, some go so for as to say it always rains there. This is a mistake; that is, does not "bour down" all the time, although dusty streets in that beautiful town are un exception to the general rule. It mins heavily there cometimes, as it did during a few days work before last, when the streams, from the raging Wailaku, down to the most diminutive streamlet, were swotlen to gigantic proportions. seen plainly at Hills. New Builderns .- We notice on the lot on King street, known as the Globe Hotel premises, two wooden buildings are being erected. The buildings are to be two stories high, and will no doubt look well when completed; still we can not but regret that instead of two comparatively small wooden buildings. a substantial brick or concrete structure had been erected on this valuable lot. It is none of our busisees what kind of buildings people arect on their own property-we only regret to see slight wooden structures put up in places where litick, stone, or counrete would look better and be cheaper in the end. Howlulu has passed through the thatch and adobe period, and is rapidly emerging from that of wood. Stone, natural or made, and brick are taking their places; our streets are becoming, from day to day, to look more like a first-class live city, and we hope to see before many years that the business part of the town, instead of presenting a motley appearance of wood and more substantial buildings mixed together, and

It is somewhat remarkable that although pearly all the great Insurance Companies of the world have met with great losses, the Hamburg-Bremen Fire Insurance Company, of which F. A. Being one of the strongest and most secure Companies in the world, and having agencies in all cities where other great Companies have, it is most strange that it should have in this instance escaped from loss. It is therefore, precisely on the same footing as before the great fire, and these desiring to insure their property can do so in this Company with the utmost scenirity. ### THE GREAT FIRE IN CHICAGO. Its Origin and Progress,

Extent of the Devastation.

CHICAGO, October 10 .- About 10 o'clock Sunday pened a thousand times before. The wind at the considerable quantity of young ice during his expeditime was blowing strongly from the south southeast, then, which cut up his bests badly. and owing to the dryness, everything was combinatible. From this small beginner, the fire repidly spread, soon resetting the adjoining property and taking the course of the wind, began to spread more feroured everything combustible la their way, and the carnival of devestation and after wide spread ruin began on the south side of the city. In a short ime the unguitheent depot and other buildings of he Michigan Southern and Rock Island Rellway companies were to flames. From this time forward all efforts of the fire department seemed unavail-

Noon -The rallroad cast and south are sending no trains out this forenoon as all the cars to the city over Sunday are consumed. The incoming trains are all behind time owing to the fires raging in the woods and prairies. The evening trains will prohably start out on time. The mails at the Postoffice | E. E. Smith, Carletta, S.F. Seth H. Ingalls, 2d. being consumed, of course all the accumulation of mail matters for to-day's delivery has been con sumed. The mails for the Stock Yards is taken from the incoming trains for delivery here

The water and gas works are both destroyed, and probably for some time the only supply of water will be from the Lake. All the bridges scross the Culcago river from Van Buren street to the Lake have been barned, and the only means of getting from one division to the other is by the tunnels' entrances, which are badly blocked.

The newspaper offices have all or nearly all been swept out of existence, and their materials destroyed. No papers have been or will be issued down own to-day. The Stock Yards Sun being the only sureal which escaped conflogation.

This morning a large number of teams were sent by Mesers. Tucker and Sherman to assist in the removal of such furniture as had been saved from the Sherman House.

Aid was tolegraphed for to Milwankee at 3 o'clock Sanday morning, and a number of the engines were at once sent torward by express. The banks have all been destroyed excepting the First National, and the upper part of that is gutted. The vaults are cowever, intact. The botels in the district from Van Buren street to the river, and from the river to the Gay Head, E. Swift, J. D. Thompson, Eugenia, in the botels in other parts of the city.

2:10 P.M -Word is just brought that a flarce fire is miles south of the southern fire limit on the south side and a little less than that from the limit on the west side. This has been set fire for the purpose, evidently, of destroying the remaining part of the also known that two men who were caught in the act of firing buildings have been shot, and others tod off with ropes around their necks. ### A Card.

We, the undersigned ladies and masters, would espectfully tender our heartfelt thanks to Captain Thos. H. Mellen, of the ship Kuropa, for his kind recustion and hospitable entertainment of ourselves, officers and crews while on board his ship. We would also tender our sympathy for the loss of his season's catch, and return extra thanks for the generous manner in which he invited us on board, by setting his colors fore and aft when he saw us coursing in our boars. And the welcome on board in the Arctic Ocean, in our destitute condition, will long be remem bered by all. May his future prosperity in life be measured out to him after his own bounteous manner of ministering to ourselves while on board.

With respect, etc., etc. Heppingstone & Lady, Benj. Dexter & Lady, Valentine Lewis, Jared Jernegan, Ariel Norton. L. C. Owen.
